FOCUS AREA – APPLICATION DEVELOPMENT

Expense Management
Track, control, and report expenses in real-time. Ensure accountability with smart approval and policy compliance.

Payables & Receivables
Manage invoices, payments, and collections seamlessly. Gain better visibility into cash flow and vendor/customer relationships.

Treasury Requests
Digitize and monitor treasury operations. Improve fund allocation, liquidity, and internal request handling.

Capital Expenditure
Automate capex approvals and planning. Ensure strategic investments align with budget and compliance policies.

Budget Approval
Simplify budget proposal, review, and approval cycles. Gain transparency and control over financial planning.

Admin Service Request
Centralize and track all administrative requests. Improve turnaround time and service accountability.

Record Keeping
Maintain digital records with easy retrieval and audit trails. Ensure secure, organized, and compliant documentation.

Maintenance Scheduling
Automate preventive and corrective maintenance tasks. Reduce downtime and prolong equipment life.

IT Service Requests

Enable employees to raise, track, and resolve IT issues efficiently. Improve IT response and user satisfaction.

Expenses & Travel Management

Plan, submit, and reimburse travel and expenses seamlessly. Ensure policy compliance and budget control.

Asset Management System

Track, maintain, and optimize physical and digital assets. Reduce loss, increase uptime, and boost ROI.

Procurement Management

Digitize purchase requests, vendor selection, and order tracking. Improve transparency and control procurement costs.

Purchasing & Inventory Management

Monitor stock levels and purchase needs in real time. Avoid shortages and overstock through intelligent analytics.

Warehouse Management App

Manage goods, space, and operations efficiently. Enhance accuracy, speed, and traceability in warehousing.

Sales Order Processing App

Automate sales orders from entry to delivery. Improve order accuracy and customer satisfaction.

Service Management App

Track service requests, allocate resources, and close tickets faster. Deliver consistent and quality service every time.

Smart Shift Rostering

Create optimized staff schedules automatically. Improve productivity while ensuring labor law compliance.

Travel Reimbursement

Submit, verify, and approve travel expenses quickly. Ensure fast payouts and clear audit trails.

Employee Management

Centralize employee records and lifecycle processes. Support better HR decision-making and compliance.

Department Transfers

Simplify employee department changes with workflow-based approvals. Maintain clarity in reporting and payroll structures.

HR Benefits Requests

Digitize employee benefit claims and tracking. Ensure transparent and efficient HR support.

Leave Management

Enable easy leave applications, approvals, and tracking. Maintain team availability and work continuity.

Performance Management

Track goals, reviews, and feedback. Drive growth through structured appraisals and skill assessments.

Assent Management App for Shipping Industry

Digitally manage crew onboarding, compliance, and duty assignments. Ensure smooth shipping operations and legal adherence.

Asset Management App for Aquaculture Feed Manufacturing

Track feed production assets and ensure timely maintenance. Improve operational efficiency in aquaculture plants.

Incident Management App

Report, track, and resolve workplace incidents efficiently. Ensure safety compliance and reduce risk exposure.

Equipment & Infrastructure Maintenance Management App

Automate maintenance logs and service schedules. Maximize uptime and extend infrastructure life.

Field Workforce Management App

Track field agents, task status, and geo-locations in real time. Improve productivity and response times.

ESG Compliance Management App

Monitor and report environmental, social, and governance metrics. Stay aligned with regulatory standards and stakeholder expectations.

Predictive Asset Monitoring App

Use sensors and AI to predict asset failures. Reduce downtime and cut maintenance costs with proactive actions.

Fleet & Logistics Management App

Track vehicles, deliveries, and driver performance. Optimize routes and ensure timely dispatches.

Customer Engagement & Billing App

Automate billing cycles and customer communication. Improve satisfaction and ensure timely payments.

ENGAGEMENT MODELS

Hire dedicated team

Hire engineers that become an extension of your onshore team through our strategic partnership model.
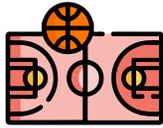

Dedicated Product/Solution Development Team

End-to-end custom software development. Your vision, our execution. Ideal for full cycle MVP design and development.

Build-Operate-Transfer Model

Greater flexibility, lower risks, lower costs, and faster time to market with smooth transition as you take ownership.

WHY US

Structured Application Development

We offer an aligned structure for mobile application development to ensure efficiency and quality.

Client Satisfaction & Timely Delivery

We prioritize client expectations and ensure on-time delivery.

24/7 Support & Regular Feedback

Our team offers round-the-clock support and feedback sessions.
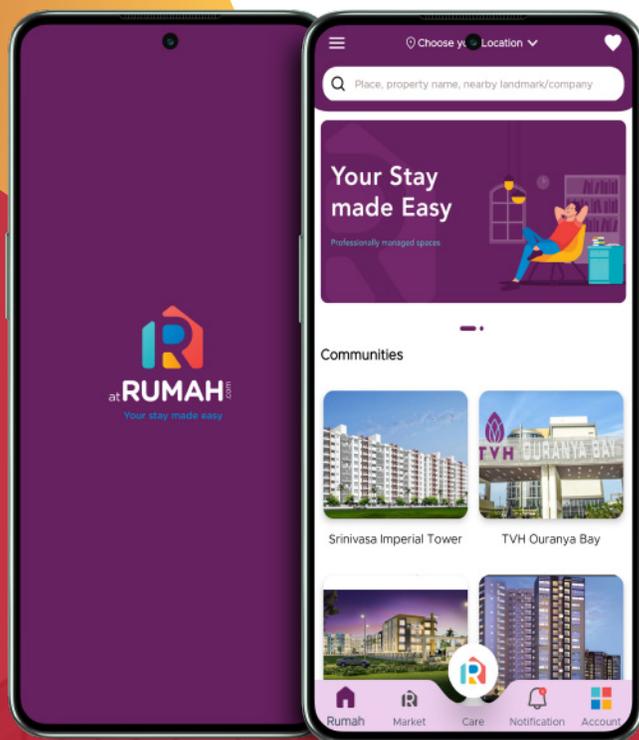

Agile Development & Quality Assurance

We use agile methodology with rigorous testing for a smooth handover.

atRUMAH – Your Stay Made Easy

▪ ABOUT

atRumah Room Rental System is a mobile-based solution that simplifies room rentals through secure bookings, instant payments, and seamless landlord–tenant communication.

Client Challenge

Managing room rentals was becoming increasingly difficult for landlords and tenants. Manual bookings, delayed payments, and lack of transparent communication often led to disputes and inefficiencies, affecting occupancy rates and overall rental experience.

Our Solution

We developed the **atRumah Room Rental System**, a streamlined mobile application that:

• Enables **secure room bookings**
• Facilitates **instant online payments**
• Includes a **built-in chat feature** for direct communication between landlords and tenants.

The platform simplifies rental management by providing real-time booking updates and a comprehensive transaction history for both parties, ensuring a transparent and efficient rental ecosystem.

Result

The implementation of the atRumah system delivered measurable improvements:

• **80% reduction** in booking errors
• **65% faster** payment turnaround time
• Significant boost in tenant satisfaction

My EduTech – Learn, Play, and Grow Smarter

■ ABOUT

My EduTech is a student-centric mobile application that allows learners to buy e-books, participate in educational quizzes, and earn daily engagement rewards, making learning both effective and enjoyable.
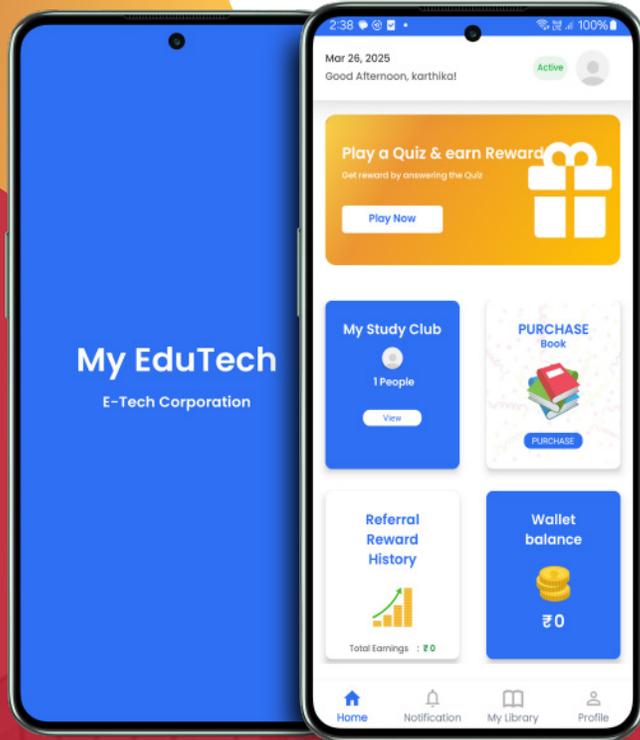

Client Challenge

Many students face difficulty accessing affordable study resources, staying motivated, and engaging in consistent learning using traditional tools. The absence of a fun, interactive, and rewarding digital environment resulted in poor study habits and a lack of enthusiasm toward learning.

Our Solution

We developed **My EduTech**, a mobile app tailored for students that:

• Enables **easy purchase** of digital e-books

• Offers **fun and educational quizzes**

• Rewards students with **daily tokens of appreciation** to promote continued engagement

The solution integrates **light gamification** and r**ecognition-based incentives**, helping build stronger learning habits and maintaining motivation through an enjoyable, tech-driven platform.

Result

The launch of My EduTech brought measurable success:

• **70% increase** in daily student engagement

• Higher quiz participation rates

• Significant boost in digital e-book sales

Students felt more connected and motivated in their learning journeys, while educators observed improved consistency in study patterns and better overall academic discipline.

Kanna Saloon – Hassle-Free Salon Appointment Booking

▪ ABOUT

Kanna Saloon provides a seamless and modern way for customers to book salon appointments easily through a mobile-friendly platform.
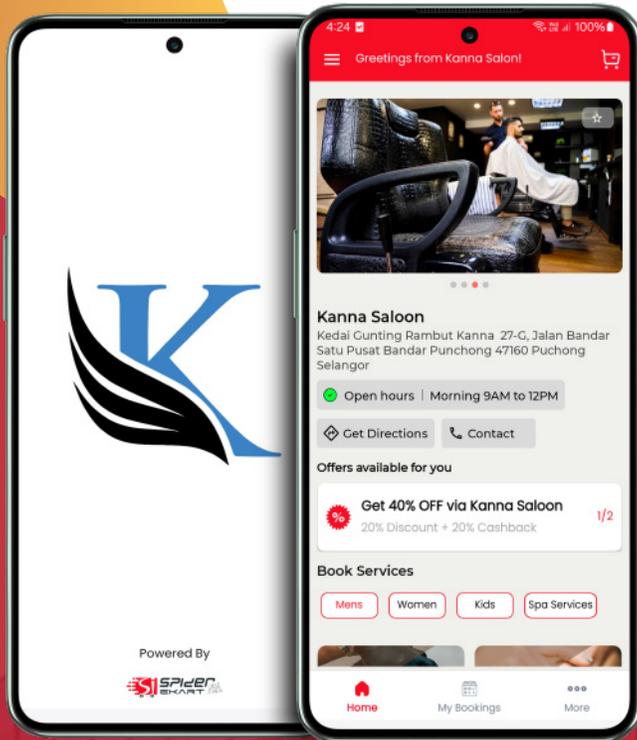

Client Challenge

The salon faced difficulties managing appointments manually, which led to:

• Missed bookings
• Long wait times
• Poor customer satisfaction

Without a user-friendly digital system, the salon struggled to streamline scheduling and enhance customer experience.

Our Solution

We built the **Kanna Saloon Mobile App**, enabling customers to:

• Instantly book appointments for haircuts and grooming services
• View real-time slot availability
• Browse service listings
• Receive booking confirmations

The app simplified the appointment process from start to finish, offering a complete digital experience that improves both customer convenience and operational efficiency.

Result

Implementation of the Kanna Saloon app led to

• **60% reduction** in walk-in wait times
• **75% increase** in confirmed appointments
• Higher customer satisfaction and better salon organization

The salon saw improved operational flow, while clients enjoyed faster, more reliable, and stress-free grooming appointments.

NLFCS – Transparent and Secure Digital Voting

■ ABOUT

NLFCS Voting App is a secure digital platform designed to conduct transparent elections, provide real-time result updates, and ensure seamless participation from voters—anytime, anywhere.
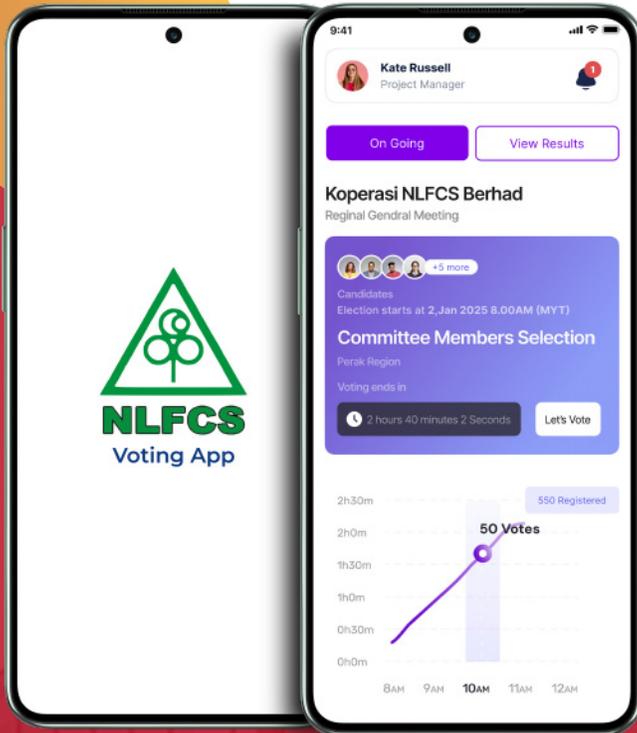

Client Challenge

Conducting elections manually posed several challenges:

• Delayed result announcements
• Low voter participation
• Doubts about transparency and data security

The lack of a secure and efficient digital platform made it difficult to maintain election integrity and voter trust.

Our Solution

We developed the **NLFCS Voting App**, a user-friendly and secure digital voting solution that:

• Ensures transparent, tamper-proof elections
• Provides real-time results and updates
• Supports remote participation with ease
• Uses encrypted voting systems and verification features to protect data integrity

This streamlined platform simplifies the entire election process while maintaining the highest standards of trust and accountability.

Result

The NLFCS Voting App delivered impactful results:

• **90% increase** in voter participation
• Elimination of result delays
• Significant improvement in data security and trust

Organizers reported smoother election administration, while voters appreciated the simplicity, safety, and transparency of the digital voting experience.

1 Moon – Seamless Gadget Shopping at Your Fingertips

■ ABOUT

1 Moon is a one-stop mobile application for purchasing the latest mobile phones and electronic gadgets—offering convenience, competitive pricing, and product variety in a single digital platform.
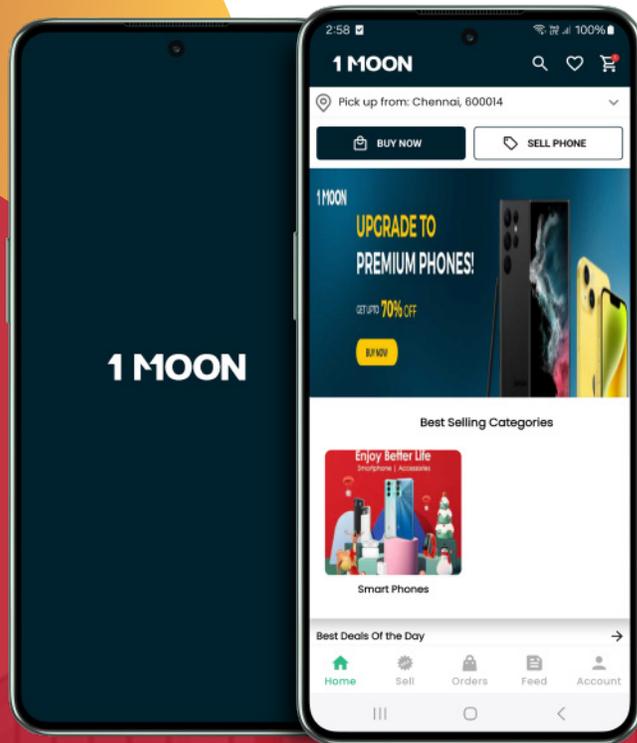

Client Challenge

Online shoppers often struggled with:

• Limited product choices
• Inconsistent or unclear pricing
• Complicated and frustrating shopping experiences

These factors negatively affected customer satisfaction and purchase conversions.

Our Solution

We developed the **One Moon Mobile App**, a user-friendly platform that:

• Showcases a wide selection of mobile phones and electronics
• Offers unbeatable prices and real-time product availability
• Provides a smooth, secure, and hassle-free shopping experience with:
  - Easy product browsing
  - Fast checkout
  - Reliable customer support

The app was designed to simplify online gadget shopping while maximizing customer convenience.

Result

The launch of One Moon delivered impressive results:

• **80% increase** in product sales
• Boosted customer satisfaction
• Higher rate of repeat purchases

Shoppers reported a significantly improved buying experience, with better product variety, smoother transactions, and stronger perceived value for money.

Chennai Live 104.8 FM – Tuning into the Digital Pulse of Chennai

■ ABOUT

Chennai Live 108 is your go-to FM station, bringing audiences a vibrant mix of music, trending news, and entertainment through a dynamic digital platform**.**
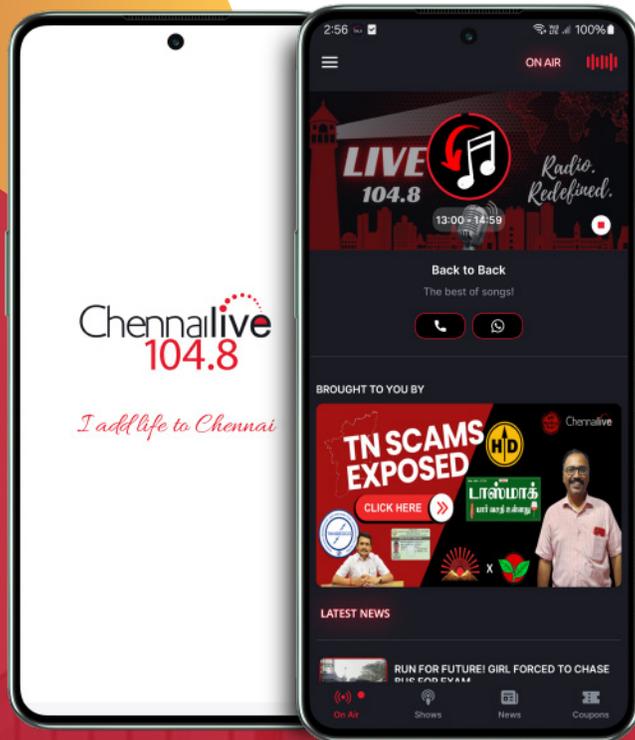

Client Challenge

The station needed a modern and engaging platform to:

• Reach a growing digital audience
• Deliver real-time content updates
• Host diverse programming
• Maintain strong connections with local listeners

Traditional FM broadcasting lacked the interactive edge required for today's mobile-first users.

Our Solution

We created the **Chennai Live 108 App**, a feature-rich FM radio application offering:

• 24/7 music and entertainment streaming
• Real-time news updates
• Live shows and trending content
• Interactive listener segments

The app ensured that listeners stayed continuously connected to the city's voice, enhancing digital engagement and audience loyalty.

Result

The app's launch generated strong positive outcomes:

• **70% increase** in listener engagement
• Broadened digital audience reach
• Significant boost in real-time interactivity
• Chennai Live 108 solidified its position as a leading urban FM station, blending traditional radio with a modern digital presence to stay relevant and engaging.

MedLight – Medical Care

■ **ABOUT**

MedLight connects medical professionals with top job opportunities tailored to their skills and specialties.
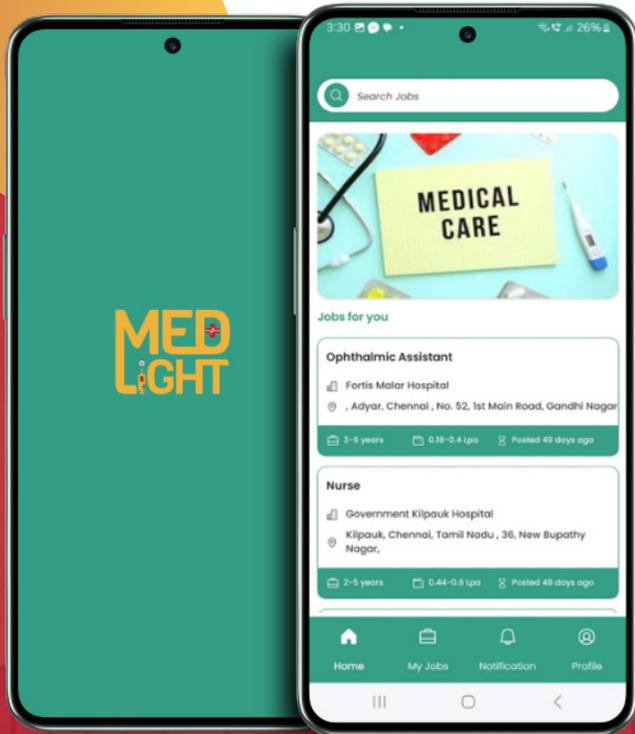

Client Challenge

Medical professionals struggled to find relevant job opportunities suited to their specialties and career goals. Traditional job portals lacked industry-specific filters and personalized recommendations

Our Solution

We built **MedLight**, a dedicated job portal connecting healthcare professionals with top medical job opportunities across various specialties. The platform offers tailored job matches, easy applications, and real-time alerts for openings that fit users' skills and expertise.

Result

The portal achieved a **60% faster** job placement rate, improved user engagement, and earned positive feedback from both recruiters and medical professionals. MedLight became a trusted platform for advancing medical careers with ease.

G-Gate – Construction Materials at Your Fingertips

■ ABOUT

G-Gate is a construction e-commerce app designed to simplify the procurement of high-quality construction materials like bricks, aggregates, and solid blocks—offering a smarter, faster, and more transparent solution for industry professionals.
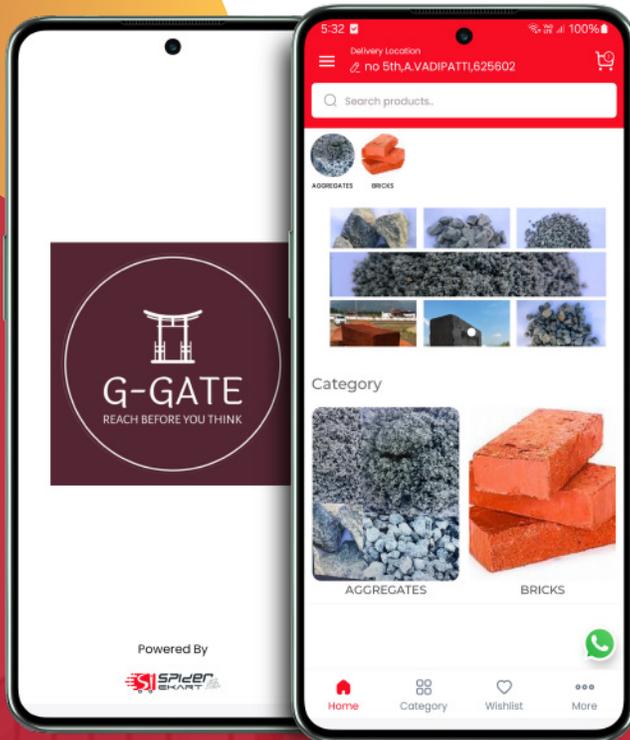

Client Challenge

Contractors and builders struggled with:

• Sourcing reliable and high-quality materials
• Dealing with slow and inefficient procurement processes
• Facing limited options, non-transparent pricing, and frequent delivery delays
• Traditional methods made it difficult to meet project timelines and manage costs effectively.

Our Solution

We developed the **G-Gate App**, a seamless mobile platform that:

• Offers a wide range of construction materials (bricks, blocks, aggregates, etc.)
• Features real-time inventory, transparent pricing, and user-friendly navigation
• Enables efficient order placement and delivery tracking
• This all-in-one solution empowers construction professionals to source materials quickly, accurately, and with full visibility.

Result

The G-Gate platform delivered measurable benefits:

• **65% reduction** in procurement time
• Improved order accuracy
• Higher customer satisfaction

The app helped transform the construction supply chain by making material sourcing **faster, more reliable, and completely hassle-free.**
